PRICE

They said yes. You sent your banking details. Then nothing.

The booking died between “let’s do it” and opening the banking app.

WHY IT HAPPENS

Saying yes takes two seconds. Paying takes five steps.

1. Leave the chat
2. Open the banking app
3. Add a new beneficiary
4. Copy four details
5. Wait for the OTP

At work or making supper, that becomes “I’ll do it later”.

THE FIX

One deposit message. Five parts.

1. **The amount**
   One number, not a percentage.
2. **What it secures**
   The date, the time, the service.
3. **It comes off the price**
   Part of the price, not an extra.
4. **How long you hold it**
   “Until tomorrow at 6pm.”
5. **The easiest way to pay**
   And ask for a screenshot.

BEFORE AND AFTER

Say what the money does.

Perfect, let's do it!

INSTEAD OF

Great! Here are my banking details:
Acc no: 0000 000 000
Ref: your name

Read 14:05

SEND

Lovely, Thandi! A R150 deposit secures 12 December at 10am, and it comes off your R450. I'll hold the slot until tomorrow at 6pm. Send me a screenshot when it's done and I'll confirm.

14:04

Example. Names and prices are made up.
