The 10-Minute WhatsApp **Business** **Audit**

Twelve checks on how your WhatsApp handles inquiries.
Tick what you already do, fix what you don't, each in about
a minute.

Grab your phone. Open WhatsApp.

Go through these twelve checks with your WhatsApp open. Tick each one you can honestly say yes to. Each check has a one-line fix under it.

Most of these need the free WhatsApp Business app. Its tools live under **Business tools** (in Settings on iPhone, in the ☰ menu or Tools tab on Android).

Your profile

- ☐ **1 You use WhatsApp Business, not personal WhatsApp.**
Fix: install WhatsApp Business (free) and move your number across. Back up your chats first.

- ☐ **2 Your profile photo is recognisable, even small.**
Fix: a simple logo, or a clear photo of you if you are the business.

- ☐ **3 Your description says what you do, for whom, where, and how to book.**
Fix: "[What] for [who] in [area]. [Your difference]. Message us to book."

- ☐ **4 Your business hours are filled in.**
Fix: Business profile → Hours. It also powers your away message.

- ☐ **5 Your top services are in the catalogue, with prices and photos.**
Fix: add just your 3 to 5 most-booked services under Catalogue.

Automatic replies

- ☐ **6 A greeting message is on, and it ends with a question.**
Fix: "Thanks for messaging! What are you looking for, and roughly when?"

- ☐ **7 An away message runs outside your hours.**
Fix: Away message → Outside of business hours. Say when you'll reply.

Want the exact greeting, away message and 40 copy-paste replies? They're in **The Reply Kit**.

Replying

- ☐ **8** **New inquiries get a real reply within an hour during business hours.**
Fix: check WhatsApp at set times (for example on the hour). The first proper reply usually wins.
- ☐ **9** **Your most common answers are saved as Quick Replies.**
Fix: Business tools → Quick replies. Save your price reply as `/price`.
- ☐ **10** **You never send a price on its own.**
Fix: value, then price, then a question. "...it's \$45. Thursday or Saturday?"

Following up

- ☐ **11** **You use labels to see who is waiting on a follow-up.**
Fix: create labels New, Quoted, Follow-up, Booked, Lost, and move chats along.
- ☐ **12** **Every chat that goes quiet gets at least one follow-up that asks something.**
Fix: never "just checking in". Try: "Would [A] or [B] suit you better?"
