“Do you have space in December?”

Your first reply decides who gets the slot.

EXAMPLE

Hi, do you have space in December?

21:40

WHY NOW

December is being planned right now.

Almost a third
of annual spending on domestic airlines is booked between September and November.

More than six weeks
ahead: when the average December flight is booked.

Standard Bank data, reported by IOL, 20 October 2026. Travel, not services, but it shows when people plan December.

THE FIX

One reply. Four parts.

1. **Yes or no**
   Answer the question they asked.

2. **Two specific dates**
   “12 or 14 December?”, not “When suits you?”

3. **The price**
   Or what it includes, so they can decide.

4. **One question that books it**
   Easy to answer in two seconds.
