

ENROLMENT SEASON 2027

Universities are full. Your admissions inbox is next.

Families who missed out on a public university seat are messaging private colleges now. Who answers first?

THE GAP

More than **100,000** qualifying students had no public university seat.

Bachelor's passes

340,000+

Public university spaces

about 235,000

2026 intake. Source: Daily Maverick, 22 January 2026.

Their families are now shopping for a plan B. Many of them start **in a chat**.

THE LEAK

The inquiry arrives. Then **nobody answers it well.**

1 in 4

inquiries got no
response at all

1 in 6

got any follow-up

Mystery-shopping study of 54 UK universities by UniQuest and Edified, via ICEF Monitor (2021). No local study exists, so measure your own inbox.

SAME QUESTION, TWO REPLIES

Hi, do you still have space for 2027?

WEAK REPLY (EXAMPLE)

Hi! Thanks for your message. Please see our website for programmes and fees. Someone will contact you.

STRONG REPLY (EXAMPLE)

Yes, we still have space for the 2027 intake. Fees and entry requirements are attached. Is this for you or your child? I can call at 10:00 or 15:00 tomorrow.

One sends them away to search. The other **answers, qualifies and books a time.**

THE FIX

The best reply wins, not the **best brochure.**

1

Answer what they asked

Space, fees, entry requirements. In the first message.

2

Ask one sorting question

Which programme, which intake, who pays?

3

Offer a time, then follow up

A call slot today. Follow up on day 3 and after results.
